

MARY BALDWIN COLLEGE

JOURNAL OF
SCHOLARLY AND CREATIVE ACTIVITIES,
2002 – 2004

JULY 1, 2002 – JUNE 30, 2004

MESSAGE FROM THE VICE PRESIDENT FOR ACADEMIC AFFAIRS AND DEAN OF THE COLLEGE

This publication represents the fourth edition of the *Scholarly and Creative Activities* performed by Mary Baldwin College faculty and covers the period from July 1, 2002, to June 30, 2004. I'm delighted to have this opportunity of sharing with you such an impressive record of achievement by so many distinguished individuals.

As you'll discover in reviewing the information contained here, the sheer quality, quantity, and variety of work performed by the college's faculty is nothing less than astounding. In two short years, they have produced over 400 significant contributions to scholarship, including books published by major university presses, articles in prestigious journals, and presentations and performances throughout the country and abroad.

Mary Baldwin College has always been an institution that places its highest priority on excellence of instruction. As a result, the achievements that you are about to see on the following pages are all the more impressive because they so frequently represent work that involved and benefited our own students — both at the graduate *and* undergraduate levels — and that enriched our academic environment in countless ways.

True scholarship may be regarded as – not the memorization of endless facts, the mastery of inconsequential details, or the publication of learned treatises that few, if any, read – but as the capacity for making unexpected connections, the ability to see clear patterns where others have seen only chaos, and the willingness to build on the achievements of earlier generations of scholars. In the pages that follow, I think you'll discover evidence of Mary Baldwin College faculty achieving true scholarship in all of these areas. I hope that this publication will inspire you, too, to reach new heights in scholarly and creative activities.

Jeffrey L. Buller

*Vice President for Academic Affairs
and Dean of the College*

DANIEL M. STUHLSTAZ, ASSISTANT PROFESSOR OF SOCIOLOGY

Awarded a Grant: Racial Parity of Educational Attainment in the 20th Century, in the Spring of 2004 by Mary Baldwin College Research Initiative Fund.

This was a grant of \$3600 funding research by a student assistant for 9 weeks in the summer of 2004. The assistant gathered and analyzed electronic Census Data from decennial censuses between 1940 and 2000. The data collected is part of a continuing project on the educational attainment of racial groups in the U.S. in the 20th century. The summer’s work will contribute toward a proposal for external funding of a comparative historical analysis of several states.

BETH YOUNG, ADJUNCT INSTRUCTOR

In my private practice, By Design, I have continued to design both residential and commercial spaces.

2004-I designed 13 residential spaces and the Technology Center Offices for the Augusta County Schools District.

2003-I designed 7 residential spaces and continued work at Nelson McPherson Summers and Santos. In addition I contributed design expertise to Cranberry's Grocery and Eatery in Staunton, re-configured space at Shenandoah Valley Water Corporation and converted unused attic space into 3 bedrooms each with a private bath for a future Bed and Breakfast in Staunton.

2002-I completed a remodel of Augusta Audiology Associates (originally designed by me several years ago) to accommodate the new HIPPA regulations concerning patient confidentiality. I also redesigned and decorated the law offices of Nelson McPherson Summers and Santos in Staunton and completed the space planning and furniture specification for MBC's ADP office in Sterling. There were 4 private residences designed in that time.
